

FORO TECH INFO

sofas

Balanced proportions and a classic yet contemporary design. Program of one-seater, two-seater or three-seater sofas made with a solid wooden frame base covered with high-density foam. Supporting structure in chromed or lacquered steel and low tables with steel structures in the same finish and tops in natural wood, lacquer or glass. This design comes with a series of attractive complements in natural wood or lacquer finish supported by the same legs: side panels, tables and shelves
