## General remark

The assembly of the sliced felt stripes results in a discontinuing line. When installing several panels next to each other the stripes will not be a continuous line. The product is developed as such that the patterns between different panels are never build up in the same order, meaning the order of the Felt slices are randomly placed during manufacturing . You will see the seam and the panels will not match up. This is for all versions. Variation in color & density may occur.

 100% Recycl P.E.T. Felt
