top management furniture

management desks / conference tables / bookcases

You cannot say that it is a new product, but rather a “jewel” within the top management world. It’s the result of a close collaboration between top qualified wood and metal specialists, who have been capable of applying the most advanced techniques using the best materials in order to achieve impeccable finishes with strict focus on smallest details regarding design and functionality

Designer	Roberto Danesi
Materials	<ul style="list-style-type: none"> ✓ Desk with 85mm thick MDF top with interior reinforced steel structure. The top incorporates a solid stainless steel piece of 240x85mm ✓ Desk with lateral steel structure made through pure craftsmanship. This structure is made with steel tube which measures 20x80mm (40mm in thickest curved part) and it enters 60mm into the 85mm thick top laterally and in front part. ✓ Bookcase made of MDF finished with wood veneer or piano lacquer. All external / internal surfaces are covered with natural wood veneer ✓ Core is MDF Mediland quality LP classified as Class E1 according to European norm EN 622-1:2003 and density between 600-620KGS/m3 which is maximum in furniture appliance ✓ Interior steel structure of 85mm thick desk top with steel tubes of 40x30x1,5 mm painted and protected against corrosion.
Finishes	<ul style="list-style-type: none"> ✓ Desk top with natural veneer or piano lacquer finish (white/black). The piano lacquer finish can be color personalized as a special request. ✓ The top is available with two or three leather pieces ✓ To achieve the piano lacquer finish a thick layer of lacquer is applied which afterwards goes through a 10 days manual polishing process ✓ All pieces come with three layers of polish with sanding by hand between each layer to achieve an optimal smooth adherence and durability ✓ The wooden parts are all polished with lacquers of polyurethane with high content of solids to build a greater hardness without losing the sensation of the wooden touch ✓ The decorating elements are made by laser cut stainless steel finished by hand ✓ The structures are made of steel given an exclusive treatment which consist of niquel bath, lacquered and polished by hand
Others	<ul style="list-style-type: none"> ✓ The desk is always supported on a left/right side credenza. This credenza elegantly solves all cable management. Cable management is solved in back part of credenza which has 3 hinged covers which gives access to cable space which incorporates shelf where power strip can be placed. ✓ The top total measure is 2400x1100mm and is made of four parts. A front panel (visitors side) which measures 2400x400mm and three parts on Director side which

measure respectively 700x700mm / 1000x700mm / 700x700mm

- ✓ The desk support on side credenza is quite unique and the top is supported on a MDF block covered with stainless steel which measures 300x125mm
- ✓ The desk incorporates 2 front drawers with space for DINA4 papers and pencils with veneer/leather finish
- ✓ The conference tables with 100% cable management through central wiring channel in top which comes with piano lacquered MDF cover and legs which are all accessible for the vertical cable management finished in black/white piano lacquer
- ✓ The desks come with levelers for floor adjustment
- ✓ All tables are **finished by hand**, pre-assembled in fabric, numbered one by one to guarantee a perfect assembly for the final client
- ✓ **Unique packaging** in reticulated polyethylene foam, triple layer of laminate polyethylene with hermetic bubbles 5x5 and a density of 5400 bubbles/m², corner protectors of high density reticulated polyethylene foam and cardboard box made to fit
